Perfect for those who love outdoor entertaining, this floor plan lends itself naturally to lots with a view. A creative layout adds space and function to the homes building footprint without additional square footage. The interior features a formal staircase that elegantly flows into the foyer, accenting the welcoming entryway for guests. The large well-planned kitchen is open to both the living room and dining room with an island. The upstairs living quarters helps to separate the kids from the parents with 3 bedrooms, a loft/gameroom, and a bathroom.
